KolorFX paints have been specifically formulated for airbrushing polycarbonate & lexan plastics, with a special formula to prevent clogging at the tip and random paint splatters.

KolorFX paints have an extremely high flexibility, and a strong durability to help withstand the rigorous R/C environment.

KolorFX paints DO NOT need reducing or thinning, they are designed & produced at a perfect consistency for personal airbrushes.

Kolor FX paints high flexibility has been designed to work in conjunction with SRC Easy Masking.

KolorFX paint colours are designed & manufactured right here in Australia.

Clean up with water.
